**BaByliss PRO Product Line**

**BaByliss PRO - 1 1/4" Plate Width - Nano Titanium Integrated Ceramic Heaters**

Product ID: 24408

Features a built-in ionic generator and recessed LED electronic temperature controls. This tool performs up to 40% faster than many straightening irons available today, the log plates are a great feature, plus the slim design is easy to handle and will eliminate hand fatigue. High heat levels, up to 450 degrees, provide extraordinary straightening results. Nano Titanium is an exceptional conductor of heat; maintains stability in ultra-high temperatures. Nano Titanium heat retention, weight and smoothness helps reduce time and fatigue. Nano Titanium yields maximum far-infrared heat, penetrating the hair from within for gentle straightening without damaging hair. Ryton housing - resists high heat.  
**No Returns or Exchanges - All Sales Final. If product is defective at the time of receipt call 1-800-393-3848.**

**Retail Price:** \$139.00

**BaByliss PRO - 1" Plate Width - Nano Titanium Integrated Ceramic Heaters**

Product ID: 24407

This new ultra-slim iron is lightweight, easy to handle and delivers maximum performance and efficiency. 40% faster than leading straightening irons, it reaches up to 450 degrees to transform everyday hair into vibrant, shiny, smooth and moisture-rich hair. The extra-long plates allow for wider sections to be straightened, boosting speed and effectiveness as the slim design eliminates hand fatigue while increasing styling flexibility. Best of all, the style lasts and lasts! Advanced surround heat for ultimate straightening or curling. Nano Titanium is an exceptional conductor of heat; maintains stability in ultra-high temperatures. Nano Titanium heat retention, weight and smoothness helps reduce time and fatigue.
