Institut Esthederm - Gentle Deep Pore Cleanser

Product ID: 28050

More effective than an exfoliant and much gentler, Osmoclean is in a league of its own. This rich, supple cream, free of scratchy, irritating grains, allows all types of skins to be thoroughly cleansed. Thanks to an exclusive technology that respects your skin fully, through a cleansing-by-osmosis process it gently "pulls off" impurities and dead cells in the skin's pores. Osmoclean reduces blackheads when used regularly.

Retail Price: \$40.00

Usage:

Apply with small strokes to clean dry skin on your face, neck, and décolleté area. Massage using little circular movements until the cream thickens, concentrating on the T-zone of the face. Rinse thoroughly with lukewarm water. Two to three times a week.

Institut Esthederm - Intensif Bipeptine V Concentrated Formula Cream

Product ID: 28049

Bipeptin is a complex of two peptides reproducing a natural fragment of collagen present in the dermis. Hence it is perfectly tolerated and immediately recognizable by the skin which optimizes its effectiveness.

And to optimize its effectiveness of this complex even more Institut Esthederm 's advanced research has chosen to combine it with special components which carry it faster to the center of the skin and immediately endow it with softness, tightness and elasticity. Among this component can, notably be found Rosa Canina Oil, which is particularly sought after for its high revitalizing vitamin A content and comes from the Wild Rose, a thorny shrub with white or pink flowers, belonging to a species related to cultivated roses.

Intensif Bipeptine V thus brings a suitable response to unsightly marks brought about by pregnancy or sudden weight loss.

Retail Price: \$96.00

Usage:

Apply morning and evenings at areas at risk as a preventative measure, or on established stretch marks using circular strokes to help absorption.

Institut Esthederm - Intensif Ginkgo A Concentrated Formula Cream

Product ID: 28045

Ginkgo Biloba is a tree in the Ginkgoacea family, considered to be the oldest tree species in the world. It is also known as Maidenhair Tree. It is incredibly resistant to environmental aggressions and can live up to 1000 years. One reason for its amazing strength is that its leaves contain large amount of biologically active molecules. Its numerous health and beauty applications are based on important scientific studies conducted by some of the most prominent researchers worldwide.

Institut Esthederm's advanced research has worked on this substance to enrich it with Zinc and Hydroxydecanoic Acid to create Ginkgo A.

Used in high concentrations in the tissues, Pure System Ginkgo A provides a dermato-esthetic response to skin problems.

Institut Esthederm - Intensif Hyaluronic Concentrated Formula Cream

Product ID: 28095

Hyaluronic acid is a molecule that is naturally present in the body and has been scientifically demonstrated to have extraordinary biological properties. With water, Hyaluronic Acid forms a large viscous elastic gel that can redensify the tissues by infusing them with water. This product uses three types of highly purified Hyaluronic Acid in different sizes defined in a patented, exclusive concentrate called Hyaluronic.

Retail Price: \$84.00

Usage:

Apply morning and evening on clean, dry face and neck, after the Intensif Hyaluronic Serum.

Institut Esthederm - Intensif Hyaluronic Concentrated Formula Serum

Product ID: 28094

Hyaluronic Acid is a molecule that is naturally present in the body and has been scientifically demonstrated to have extraordinary biological properties. This molecule is one of the most important components of the extracellular matrix that plays a major role in the conjunctive tissue that makes up most of the skin and bones. With water, Hyaluronic Acid forms a large viscous elastic gel that can redensify the tissues by infusing them with water. It acts as a water reservoir for the skin.

Institut Esthederm's Hydra System uses three types of highly purified Hyaluronic Acid in different sizes defined in a patented, exclusive concentrate called Hyaluronic, which has optimal

bioavailability in the tissues and provides a dermato-esthetic response to skin problems.

Retail Price: \$84.00

Usage:

Apply morning and evening on clean, dry face and neck, and follow with Intensif Hyaluronic Cream.

Institut Esthederm - Intensif Myrtus Concentrated Formula Cream

Product ID: 28090

Myrtus, or Myrtle, is a bush with fragrant white flowers. Myrtle essential oil was used to prepare "Angel Water", an age-old beauty treatment for a youthful complexion. In Greek mythology, myrtle was used in ceremonies honoring Venus, the Goddess of Love. Our scientific research on skin aging has shown that myrtle's activity is attributable to the combined action of sirtuins, or longevity proteins, and caveolins, or cell development regulators.

In Intensif Myrtus, Institut Esthederm's advance research has distilled all the proven powers of this legendary plant into one concentrated formula. Formulated with Cellular Water, which helps to optimize the cells' energetic environment.

Retail Price: \$80.00

Usage:

Apply morning and night to clean, dry face and neck. Excellent make-up base.

Institut Esthederm - Intensif Padina Pavonica - Concentrated Formula Cream

Product ID: 28048

Padina is brown seaweed that grows in shallow temperature waters. Padina's spectacular properties have been demonstrated in important scientific studies. After years of global research on the biology of this seaweed, studies have shown the presence of a protective envelope on its surface similar in structure and composition to human skin. Using modern research techniques, scientists have discovered a link between this envelope and our skin. Skin tissue actually recognizes padina seaweed, and this promotes the synthesis of moisturizing substance that increase the skin's firmness, tone and resilience.

Institut Esthederm's advanced research uses a highly balanced and concentrated extract of this valuable seaweed in its Repair System program to provide a dermo-esthetic response to skin problems.

Retail Price: \$84.00

Usage:

Apply morning and evening to clean, dry face and neck.

Institut Esthederm - Intensif Vitamine E2 Concentrated Formula Serum

Product ID: 28096

Our body continuously produces free radicals during normal metabolism and when under stress from the environment. Free radicals damage the cellular components and create chain reactions that can be quite damaging. Anti-oxidants can stop this process by neutralizing free radicals that cause inflammation, discomfort, and premature aging of the skin. Vitamin E, the body's main anti-oxidant, traps free radicals in the skin cells and helps reduce inflammation, making the skin less sensitive and less easily irritated.

Institut Esthederm's advanced research combines two complimentary forms of particularly stable and carefully dosed Vitamin E to create an exclusive complex, VITAMINE E2, used in the Sensi

System program to provide an immediate dermo-esthetic response to skin problems and help prevent aging in skin exposed to stress and sun.

Retail Price: \$84.00

Usage:

Apply morning and evening to clean, dry face and neck, and follow with the Intensif Vitamine E2 Cream.

Institut Esthederm - Sensi System - Calming Eye Contour

Product ID: 28064

Actions: The Calming Eye Contour instantly calms the eye contour of delicate and sensitive skin. This fresh-textured gel decongests and calms irritation, swelling and redness while providing moisture and comfort.

Results: Your eyes are decongested, calmed and relaxed for a radiant and glowing look. No more tightness, discomfort or irritation. As the fragile eye area is gradually calmed, it becomes more resilient.

Retail Price: \$60.00

Usage:

Apply morning and/or evening to clean, dry skin in the eye area. Apply using gentle circular strokes or "tapping" movements from the upper inside corner of the eye towards the outer edge, and from the outer edge towards the lower inner corner of the eye.

Institut Esthederm - Sensi System UV Outdoor Calming Cream

Product ID: 28063

Aggression from external agents is one of the main factors that aggravate sensitive skin. Thanks to the UV in Cellium technology, Institut Esthederm combines tolerance and internal protection functions to provide an optimal, lasting response to delicate, sensitive skin exposed to UV rays. Calms the skin by regulating the factors that cause inflammation. Modulates the effects of sunlight and protects the skin from the harmful effects of UV rays without blocking the beneficial effects for your skin's vitality. Helps to slow down premature aging factors. Formulated with Cellular Water which helps to optimize the cells' energetic environment.

Actions: This cream decreases the sensitivity of your skin and improves its tolerance threshold, while reinforcing its ability to defend itself against daily aggressions from the environment.

Results: Your skin is calmed, relieved, rested and effectively protected. Burning, stinging, flushing and redness are minimized. Your skin is stronger and once again functions like normal skin.

Retail Price: \$90.00

Usage:

Apply in the morning to clean dry face and neck, alone or after the Cellular Concentrate. Rub in using gentle strokes. Excellent make-up base.
