Usage:

Apply as often as needed, or as directed by your physician.

Person Covey - Solbar AVO (SPF 32) Lotion

Product ID: 14519

Solbar AVO, with a tested sun protection factor of SPF 32, is a rich, moisturizing lotion formulated to protect against the UVA rays that may contribute to damage and premature aging of the skin as well as skin cancer.

Solbar AVO provides superior broad-spectrum protection against both UVA and UVB radiation. It spreads easily and leaves the skin with a soft, non-sticky feeling. Solbar AVO is non-comedogenic, very water resistant and free of PABA, fragrances, other sensitizing ingredients and containing Avobenzone (Parsol 1789).

Retail Price: \$13.25

Usage:

Apply SOLBAR AVO liberally and evenly to all sun exposed areas of DRY skin 15-20 minutes before sun exposure and massage in gently. Reapply after prolonged swimming, outdoor physical activity, excessive perspiration or towel drying. Repeated applications during prolonged sun exposure are strongly recommended. There is no recommended dosage for children under 6 months of age, except under the advice and supervision of a physician.

Person Covey - Solbar PF Cream (SPF 50)

Product ID: 14521

For maximum protection against damage to sensitive skin and for those experiencing lengthy exposure to the sun, or when engaged in water sports.

Paba-free, fragrance-free, Solbar SPF 50 actually has a sun protection factor of 50 and is water resistant. All sunscreens should be reapplied every 80 minutes when outside.

Retail Price: \$12.00

Usage:

Apply liberally and evenly to all sun exposed areas of DRY skin 15-20 minutes before sun exposure. To ensure maximum protection, reapply to dry skin after prolonged sunning, swimming, excessive perspiration or towel drying. Repeat applications during prolonged sun exposure are recommended. Consult doctor before using on children under six (6) months of age.

Person Covey - Solbar PF Liquid Sunscreen (SPF 30)

Product ID: 14520

For maximum protection, this is a fragrance-free, PABA-free, non-sticky gel that spreads easily and stays in place as applied. Solbar SPF 30 is especially suitable for patients with oily skin.

Retail Price: \$12.00

Usage:

Apply liberally to all sun exposed DRY skin 15-20 minutes before sun exposure. Let dry. To ensure maximum protection, reapply to dry skin after prolonged sunning, swimming, excessive perspiration or towel drying. Repeat applications during prolonged sun exposure are recommended. Ask doctor before using on children under six (6) months of age.

Person Covey - Solbar Shield Sunscreen SPF 40

Product ID: 14527

Solbar® Shield (SPF 40) provides a transparent, natural and soothing barrier against UVA/UVB rays. Micronized Zinc Oxide and Titanium Dioxide combine forces to deliver UV protection, guarding skin and underlying tissue from UV-induced cellular damage and inflammation. Solbar® Shield also softens and hydrates skin with a blend of pure Aloe and Vitamin E. This unique formulation leaves a light and non-greasy feel on the skin.

•Hypoallergenic •Very Water Resistant •Unscented •No Synthetic Sunscreen Agents
Containing two physical reflective agents, micronized Zinc Oxide and Titanium Dioxide, Solbar® Shield is a light and non-greasy sunscreen that provides UVA/UVB protection. Its soothing emollient formula leaves a light and non-greasy feel on the skin.

Retail Price: \$14.75

Usage:

Apply liberally and evenly to all sun exposed areas of DRY skin 15-20 minutes before sun exposure. To ensure maximum protection, reapply to dry skin after prolonged sunning, swimming, excessive perspiration or towel drying. Repeat applications during prolonged sun exposure are recommended. Consult doctor before using on children under six (6) months of age.

Person Covey - Solbar Zinc SPF 38

Product ID: 14523

This broad-spectrum formulation contains patented micronized and transparent zinc oxide plus UVB suncreening agents, shields and protects the skin not only from UVB rays, but also UVA II and UVA I rays. Will not irritate the skin or eyes and will provide safe, dependable protection from damaging solar radiation. Hypoallergenic, very water resistant and unscented
SOLBAR ZINC provides the unsurpassed UVA protection of zinc oxide without the opaque "white-out".

Retail Price: \$13.50

Usage:

Apply SOLBAR ZINC cream liberally and evenly to DRY skin, 15-20 minutes before sun exposure and massage in gently. Reapply to DRY skin after prolonged swimming, outdoor physical activity, excessive perspiration, or towel drying. Dermatologists recommend reapplying sunscreen during prolonged sun exposure every 2 hours. this no recommended dosage for children under 6 (six) months of age, except under the advice of a physician.
